

## HERALDIC TEMPLATES

by Torric inn Bjarni / Floyd L. Bullock

### ACKNOWLEDGEMENTS

To my lovely wife Ofelia della Crusca, without whose patience and support this would never have been completed.  
Korwyn Arianniad, who told me to "do a class on heraldic art, and teach others how to draw like you!"  
And to my father Gerald J. Bullock, who taught me how to draw.

Cover Art & Interior Art by Floyd L. Bullock

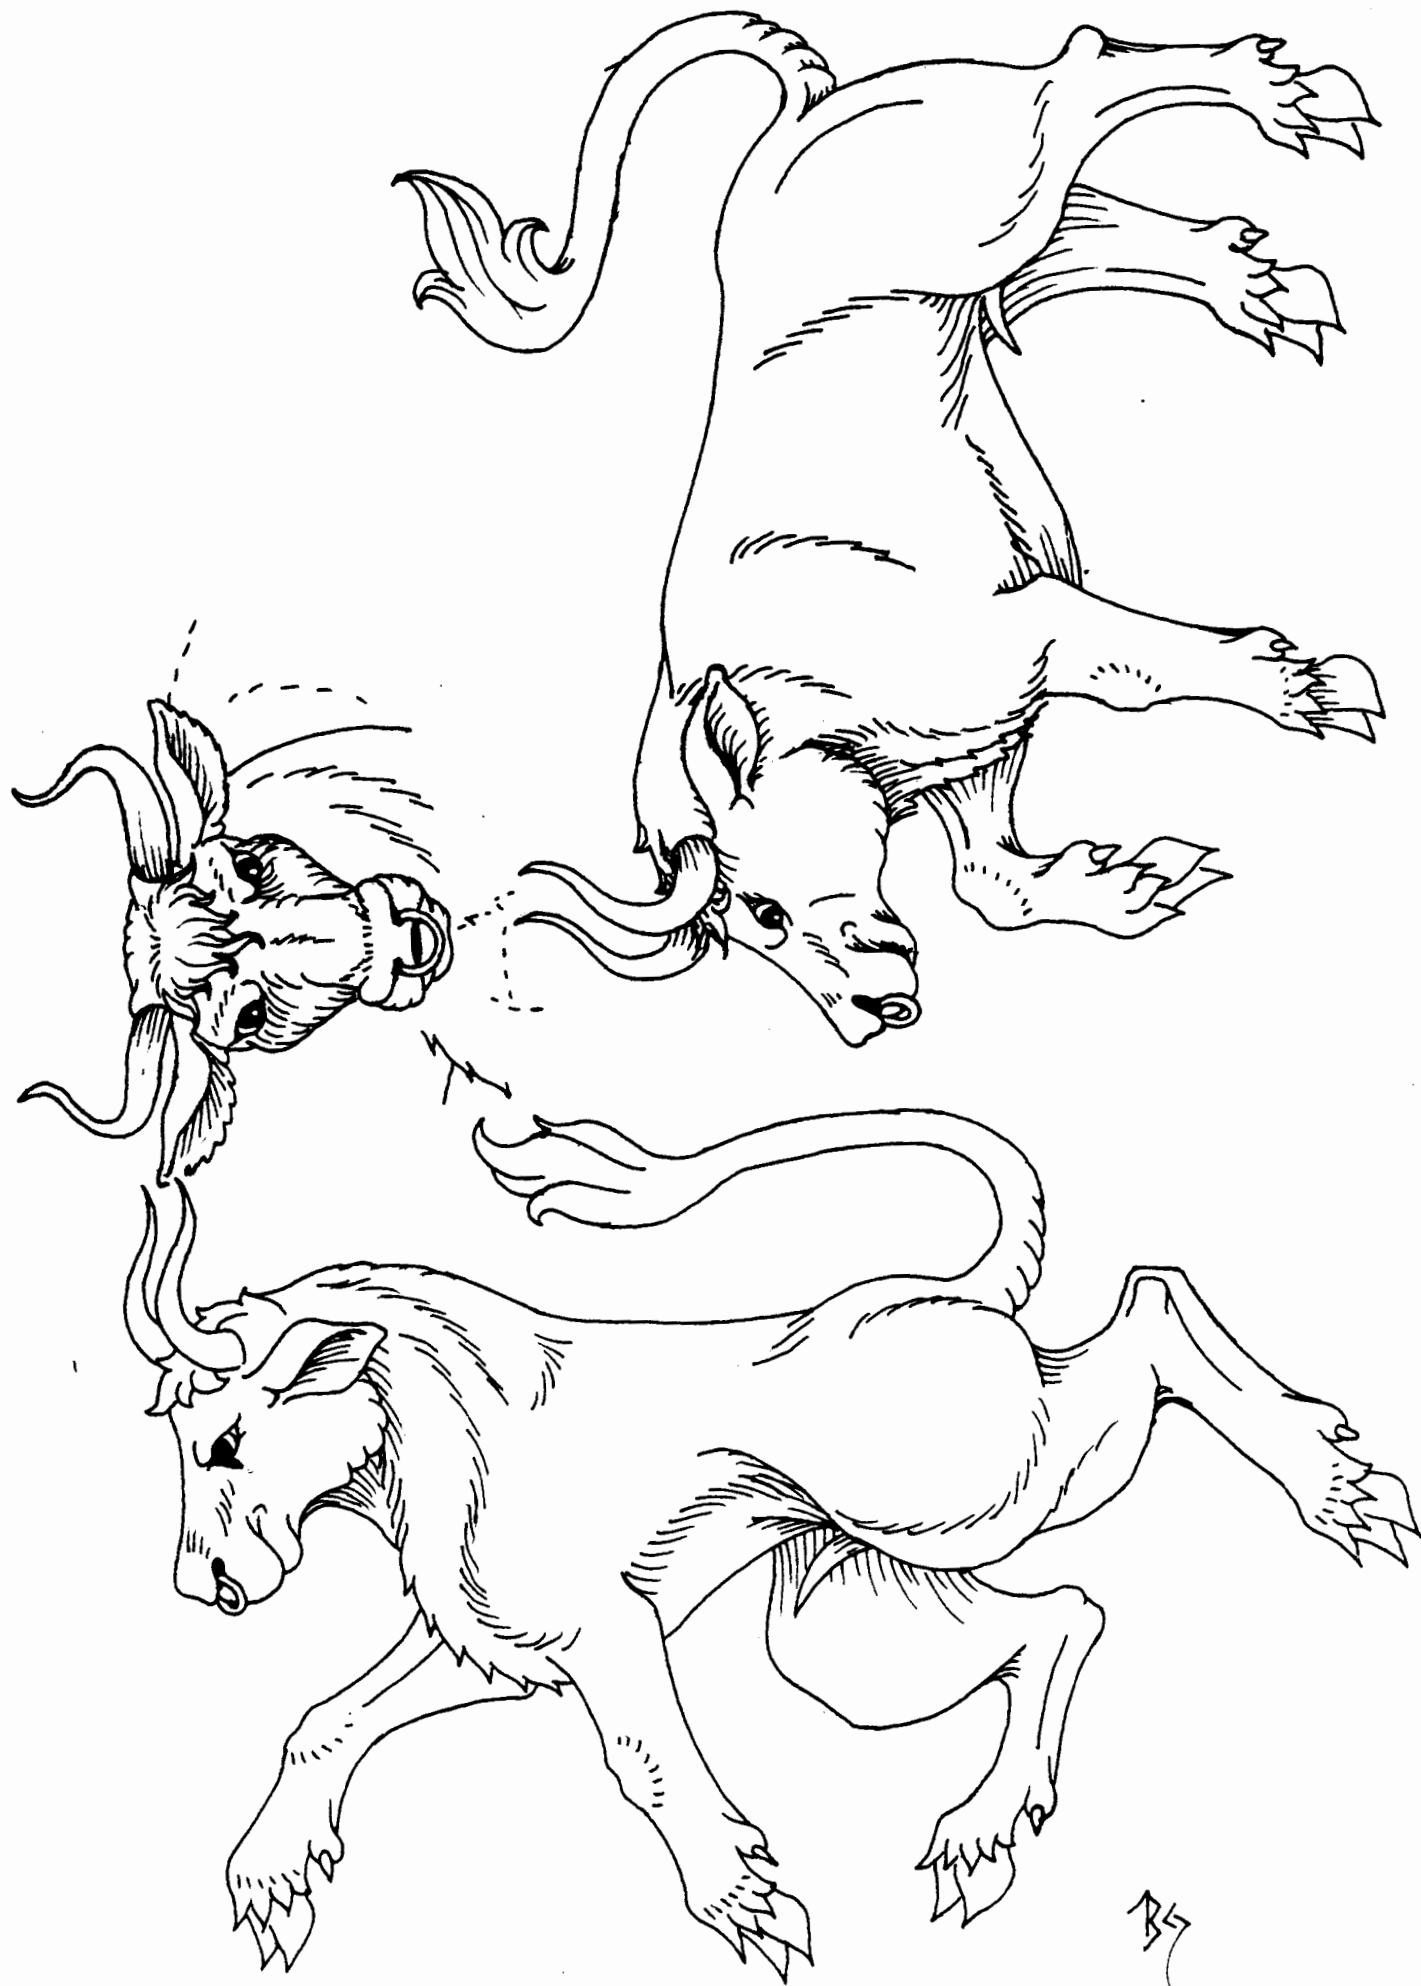

These are templates to be used to help draw better Armory. All art work is done on ONE SIDE ONLY! This is to enable you to use them with a light board or window to trace the art work on to submission forms. Not all of the charges have been labeled for it is hoped that the herald or scribe that uses this booklet will know and recognize the more common charges. Please remember that by using parts from different beasts you can make most of the other heraldic monsters. These templates have been drawn in such a way as to allow the different animal parts to be combined without much work. In the back of the booklet you will find some "clip art" from other Armory that I have drawn, this is included for convenience, and is not drawn to the same scale. Please feel free to reduce or enlarge this art work to suit your purposes.
